Product description

This is a hotel cotton bedding, which includes cotton pillowcases, cotton sheets, and cotton quilt covers. The 100% cotton pillowcases which 40 count high density combed fabric, soft and skin-friendly, with excellent breathability. Double-layer fabric design, the inner layer is thickened to prevent velvet and deformation, and the outer layer adopts printing and dyeing technology, with color fastness of more than level 4, and it will not fade. The cotton sheets is made of 60-count pure cotton twill, pre-shrunk to less than 3%, it lies flat and wrinkle-resistant. The 360° elastic band on the edge prevents movement. The fabric is treated with an anti-pilling treatment and boasts an abrasion resistance rating exceeding 1000 revolutions. we can provide a variety of colors such as solid color/jacquard/embroidery, support sample customization, and single piece independent compression packaging. The 100% cotton quilt covers which double-fixed with full-width inner straps and four-corner hidden buckles to prevent displacement and make it more secure. The pure cotton fabric is treated with a sanding process, which is warm in winter but not dry, and absorbs moisture and perspiration in summer. Choosing our hotel cotton bedding will save you a lot of costs. You can't go wrong with it. More than 10,000 hotels are using our products.

Product name	Hotel cotton bedding
Thread Count	200TC-800TC

PRODUCTION PROCESS

We focus on hotel linen production and provide you with cost-effective, high-quality cotton bedding solutions! Our core material is carefully selected high-quality 40s cotton, with excellent craftsmanship and high-density weaving machines. We strictly control product quality, meet international hotel standards, professional design, practical and considerate.

Feature

Enhanced durability and deformation resistance: 360° elastic band for bed sheet (stretching rate $\geq 150\%$), quilt cover with built-in 8-point straps + four-corner hidden buttons. The stitching is done with double yarn and three-needle five-thread binding, and the pillowcase uses the same plan. Prevents slipping and resists tearing.

Skin-friendly and breathable: The combing process removes short fibers and makes the fabric surface smooth. The striped structure improves breathability (air permeability $\geq 450\text{mm/s}$) and absorbs moisture 30% faster than ordinary cotton, quickly eliminating sweat while sleeping and eliminating the stuffy and sticky feeling.

Improved details: The quilt cover is equipped with an extra-wide 1.2m invisible zipper, which is smooth and non-stuck; the pillowcase has an envelope-style opening to prevent the pillow core from being exposed; the four corners of the bed sheet are elastically wrapped to suit mattresses with a thickness of 15-30cm.
